Profile

Profile

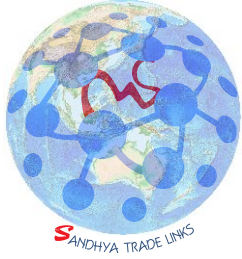

TECHNOCHEM is the founder company of WASSER TECHNOCHEM (I) LTD. & its group of companies. We deals in the sector of outsourcing, import & export since last 15 years. TECHNOCHEM allows end users like power plant operators & other industries to focus time & financial resources on their “Core Competencies”. WTP & waste water recycling system are one of the important constituents of an industry. The sophisticated technology involved keen attention to face the day to day problems (Mainly qualitative & quantitative drop in performance.) arising while operation.

The solutions of problems seem to be easier only with previous experience, reliability, knowledge and ability of decision making.

TECHNOCHEM having a common objective of optimization of available resources, manpower & facilities. Our services reflects the highest level of commitment, sincerity and consistency in results.

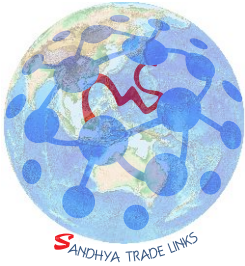

TECHNOCHEM is already handling so many O&M services at different location & of different type of treatments. Our main aim is to cultivate faith & get the best result.

- Technochem introduce O&M, a concept of outsourcing.
- Technochem undertake the complete responsibility of Total Water Management System.
- Technochem Coverup monitoring of Chemicals treatment & maintenance of the system involved for water used in your plant.

SANDHYA TRADE LINKS

Profile

Profile
